

**21st Century Community Learning Centers
2011-2012 Out-of-School Time Leadership Management System (OSTLMS)
Mid-Year Review Questions**

- 1) Please indicate any STEM (Science, Technology, Engineering, and Math) courses offered in your program. Describe the courses and explain how they have addressed the academic needs of students.

- 2) What activities are you providing that help your program reach the three 21st CCLC goals of academic achievement, academic enrichment, and family/parental involvement and programming? Which activities are the most successful and why?

- 3) Discuss successes and failures in developing and working with your community partners.

- 4) Share at least three success stories about students, families, and/or community.

- 5) Were you able to incorporate any of the summer conference activities or concepts into your program this year? If so, please discuss the benefits to your program. If not, why were they not appropriate for your program?

- 6) Please indicate ideas for breakout sessions that you would like to see at the 2012 Summer Conference in Helena.

- 7) Would you be interested in serving on an organizational committee for the 2012 Summer 21st CCLC Conference?
